Dear YC / Ou,

Re: Recognition and Thank You Letter for "Coral"

I have been tried out your product for last one week; I was surprise that it finally solve my problem which my family was complaining about the odour in my Toyota Estima. Now my kids are no longer complain about the smell in the car; thanks to "Coral".

At first, I am quite skeptical about its effectiveness to remove unpleasant smell, as it is so small. And before that I have been trying all types of products which available in the market including of perfume, ionizer even traditional method like "pandan leaf ". All these products only can cover the smell temporary; the smell will still exit after perfume depleted.

However, after using the "Coral" for first 15~20 minutes, I was so surprised that those unwanted smell, which my wife and my children had been complaining for months, was totally removed. Since using it for a few days, I am now sort of addicted to the product, as long as I drive, I need to turn on the product; to feel and enjoy refreshing air. If I forget to turn on the product, uncomfortably, I feel something is missing.

Thank you and keep up the good work.

Yours sincerely,

Managing Director
